Paul Gutierrez
James Kase (on phone)

GUESTS

Molly Landis
Anne Sharpe
Erica Nourijan
Cary Krosinsky

AGENDA

1. Follow up on Fossil Fuels Proposal
2. Future agenda items

DISCUSSION

Feedback on the draft of the President's Sustainability Task Force was sent to Paxson on February 16th. There was no update on how the proposal had been received. ACCRIP's Fossil Fuel proposal had also been sent out to the BDH and all those who had attended past meetings on this issue. BDH had responded that they only publish letters to the editor and op-ed, but would get a reporter to write a story on this. Yet as this had not yet happened, it was discussed that our proposal be turned into an op-ed. Cary Krosinsky added that he knew a student interested in writing for BDH and would put her in touch with us. We also discussed other means for making the announcement.

It was agreed that we would look at our proxy guidelines which are ten years old and follow up on the ones which require updating.
